A sampan was engaged by one of the officers of the S.S. Yang-tze, to convey him on board, and when near the City of Tokio perhaps, coloured with the leanings, a sudden puff of wind capsized the boat, throwing the occupants into the water. Assistance was soon at hand, and all were taken on board the Pacific Mail steamer where Dr Allan used every endeavour to and animadverted upon by our cor- restore animation to the girl, but without

enterprising builder of the Cosmopolitan Dock has, within the last year or two,. been at times considerably hampered by lack of the sinews of war, and that he has thereby been sorely tempted to sacrifice his property for much less than its actual value. This fact, together with the consideration that new machinery and fresh capital-most valuable and absolutely necessary adjuncts to the establishment -have since been forthcoming, explains much of the position that is now sought to be assumed by the promoters of this new candidate for financial favour. It is generally believed to be a fact that the Cosmopolitan Dock was at one time offered for sale for a sum which is now alleged to be much below its actual value as a working concern, and at an amount not far above the value stated by our correspondent; but this may not be quite the fairest way of appraising the value of such a property. Without seeking to draw any invidious comparisons between the oldest and best organised Docking Companies in the East and that now submitted to public favour, it may be noted that the Docks at Aberdeen and Kowloong are, exclusive of stock and other plant, assessed at a very large sum. Indeed, it seems to us that the best test of the feasibility of the present venture is not so much the careful consideration of the apparent disparity of offers made for the Samshui-po property when in difficulties and the terms of sale now agreed upon, but the actual field of labour that can be occupied by the new concern. The powers of work now possessed by the old Company are probably greater than they ever were; while, if the entire capital of the new undertaking be paid away as purchase money, no provision seems to be made for working the business. Looking upon the new enterprise, or rather this new phase of its existence, and in view of the keen. close criticism which it will doubtless receive, there is this to be said,that the statements of the prospectus are such as can easily be tested, while the negotiations which have previously taken place are fairly well known. The scheme now before the public may be left to stand on its own merits, and every probable shareholder is therefore in a position to carry out his intention with his eyes open. If, as its promoters appear confident of doing, the new Company be floated, it will be an important question for both companies to consider whether or not a policy of close competition will follow to the detriment of both and the advantage of shipowners only. That, however, is a matter for the consideration of actual and probable shareholders, although it must be freely confessed that Hongkong has suffered much and gained little by the cut-throat line of

As it is proposed to devote the surplus funds towards the City Hall, and as the price of admission will be \$1, those who visit the Show will probably be gainers by becoming members of the Hongkong Hortlcultural Society, as they are sure to go many times to the Exhibition while it is open and the subscription includes admission for the whole time.

WE are informed that it is in contemplation by the military authorities to abandon the Rifle Range at Kowloon and to construct one for the use of the troops somewhere between the Wanchai Gap and the village of Aberdeen, but the precise site has not yet been determined upon. A design has been drawn up here and approved by the War Office, for the erection of the necessary barrack accommodation required, and the construction of a portion of the scheme has been commenced. The buildings now in hand will accommodate six officers and about 80 N. C. officers and men, with the usual accessories attached. The site chosen is on a large plateau on the S. E. of Mount prospect seawards. The barracks will serve the men at target practice during the shooting season, it will be utilized as a sanitarium in the hot weather, and with its high elevation (about 900 feet above the sea level) and commanding sea view, should afford a pleasant and agreeable change of residence for convalescents.

THE steamship Brisbane from Sydney, with the Australian mails of 27th December last, ran upon a coral reef in the Arafura Sea about 9 o'clock on the night of the 11th January, where she remained for nearly four days. On the morning after grounding it was found that about 100 feet of her length was firmly fixed on the reef, and on the tide receding her bows were a considerable height above the rock. About 500 tons of cargo were thrown overboard, and every exertion was made to lighten the vessel and get her affeat, which was not accomplished till the morning of the 15th Jan. The nearest port was Port Darwin and the second officer Mr J. C. Arthur, ventured off in a life boat for assistance. On the same day that the Brisbane got off the reef she picked up the boat at a distance of 150 miles on her journey, having experienced very bad weather, a tremendous sea on, and a stiff N. W wind blowing. The steamer reached Singapore on the 23rd January, where she was at once docked for repairs which will probably occupy a period of about three weeks. The Kenmure Castle arrived here last evening bringing on the Brisbane's mails and passengers from Singapore. We are informed that the officers and passengers intend making a suitable recognition of the services to Mr Arthur and his orew, in venturing on such a long distance, and in such weather, to procure relief.

THE Inquest, formally opened at the Government Civil Hospital on Saturday last before the Coroner, U. V. Creagh, Esq., and Messra J. J. da Souza, C. F. Ozorio, and T. E. Davies as a jury, reassembled to-day at the Magistracy.

Every effort had been made by the Police to trace the relatives of the man who was found in the water at Belcher's Bay, but without success. There was no evidence to show how deceased came to be in the water, and the only marks on the body were such as might have been caused by grating against the rocks, or bedue to the attacks of fish. The Jury in this case returned a verdict of " found drowned."

The enquiry into the death of Ho Ayan, who was admitted into Hospital on the 27th ultimo, suffering from a compound comminuted fracture of the skull, which was the cause of death, was next proceeded with. The four prisoners arrested have been identified, one as having thrown piece of hard-burnt brick at deceased by which the skull was fractured; the other three with beating the man with bamboos while lying on the ground apparently insensible and bleeding from the head.

Mr A. P. Stokes, of Messrs Sharp, Tolle and Johnson, appeared to watch the enquiry on behalf of the relatives of the deceased The further hearing of the case stands over till Friday next, at 3 o'clock.

-This contract had been made and completed by Mr Sands, and at the time of his death one of these atotions was pending. The less had to be paid out of his estate. There was another contract on which there was some loss; the firm incurred a penalty for not having a certain vessel ready within accounts were bei g prepared and would be wanted him sent away. With regard to the disposal of the examination, a brief re-examination, and in his replies to a few questions from the Court, that to his knowledge Mr Sands before his death had apoken frequently of himself amalgamating his ousiness with that of Mr Spratt. When he died therefore it was only quite natural that the Executor should have the same idea in his mind as to the most advantageous course; besides, apart from anything Mr Sands might have said, he himself thought the plan a very good one indeed. It was of course desirable that the Slip, &c . should be kept at work and sold as a going concern, and in view of competition and other circumstances he, as Executor, had to take contracts sometimes at lower rates than would allow of any profit. His view was by means of a company to amalgamate these ventures. Mr Forbes after going carefully into the accounts found that \$135,000 represented the cost of Slip and machinery, including the estimated coat of the building as well and the cost of the new iron swing bridge. He valued MacDonald's alip at \$10,000, independently of the land. Mrs Sands ultimately put the Patent Slip at \$140,000, and the MacDonald Slip at \$15,000 without the land, together \$155,000, the stock to be taken over at valuation and she was willing to put \$50,000 in stock. On these conditions which were only come to in the latter part of November, Mr Forbes, although believing the price to be too high, was willing to deal and to endeavour to get up a company, asking Mrs Sands to say acthing publicly of her intentions for some three months as he would require that time to put affairs in order. This case was again called before the Court to-day on remand from the 28th ult. Loung Tai Hi, the aunt of the girl alleged to have been kidnapped, gave evidence. She said the complainant and all her family left the Colony on the 30th ultimo, two days after the last hearing of the case, and have not returned.

The first defendant said that on the 21st January the second defendant and a weman came to his shop. The woman said she had sold a girl to the priest and asked him to be a witness to the bargain. The second defendant said that a woman named Chan Aho brought the girl to bim and told him that her father was at sea and her mother wished some one to adopt the child. He agreed to do so, paying \$75.

The defendants were ordered to enter into their personal recognizance in \$200 each, to appear at this Court to answer any charge that may be brought against them within twelve months:

Extraordinary animation is prevailing for the races this years, when some interest will be imparted by the presence in the stables of several native and foreign horses which will ensure a well contested competition. The races are fixed for the 19th, 20th & 21st February, the idea of postponing them till March next having been given up. The press of Manila will give this year a cup, for which a special race will be arranged to be competed for.

A most horrible crime was reported from Isabela de Luzon, in which, it is said, a whole family was assassinated by robbers t the victims are Fractuoso de Villanueva, his wife and two sons, all of whom were found dead in their own house,

THE OHINA REVIEW.

THE widely-expressed regret at the dis-continuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History-Literature, Mythology, Manners and Cus, toms, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number, Original contributions in Chinese, Latins French, German, Spanish, Italian or Portuguese, are admissible. Endeavour, are made to present a resumé in each are made to present a resumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address China Review, Hongkong.-Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review ;- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China ar 1 Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform. ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellen summary is presented of the chronological problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra. is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial cotavo magazine.

## THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four G Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The editorial department is conducted by Mr Chun Ayin, whose experience and competence have already been most fully demonstrated. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate Ichang circulation of between 3,000 and 4,000 Kin Sh copies. The advantages offered to adver. Kin Ki tisers are therefore unusually great, and Powan the foreign community generally will find Sir J. J to their interest to avail themselves of Spark

them. The field open to a paper of this descrip. White ( progressive and anti-obstructive in tonein almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN, China Mai Office.
